If the Client wants to execute the task again, the task will be executed on general terms. If the task is paid for as a complete task, the Operator has the right to regard the task as completed.
  - d. The agreed scope of work influences time required to execute the order. If the Client modifies the scope of work, the Operator has the right to change the value of the fee and the deadline for completion of the task, or not to execute the task. If the Client refuses to accept the changed price and deadline, the Operator shall complete the order on the basis of the original scope and schedule.

If the Client rejects the cost, the task's execution shall be suspended and only the fee which had been initially accepted shall be charged. A task with execution time that was impossible to estimate at the beginning because of untypical scope of work or unforeseen technical problems which appeared during execution of the task shall be regarded as a task with a justified higher cost. The Operator does not regard visible or hidden defects which result from incorrect execution of the task as a justified higher cost.
  - d. When evaluating the scope of work, the Operator provides time and cost estimation in good faith, considering known and foreseeable circumstances. The Operator is not responsible for an extension of time of execution of a task and simultaneous increase of its cost, if the original scope of work was

difficult to estimate because of very high complexity, innovativeness and uniqueness of the task. In such situation, the Operator may reduce the scope of the task in order to fit in the planned budget, e.g. by omitting less important but expensive details. The Operator has the right to refuse, without justification, any request to change or replace the Information site, if this is a standard site, used in all shop Templates.
23. The Operator offers chosen services from the Price list in Express Mode:

  - c. In the event of a breakdown they should provide the Operator with all information necessary for verification, including data saved on a disk or transferred, where possible.
27. In order to allow use of Affiliate Partner External Services (ES) in a similar way to use of the Service:
  - a. In order to activate or deactivate ES, the Client or AP needs to submit a ticket to the Operator who, having their best interest in mind, enables and disables ES on behalf of the Client or AP. Enabling ES

- allows the AP to view the Client's balance (without the balance history) and charge it until the service is disabled by the Operator.
- b. Payments for ES are taken directly from the Balance. Clients allow for debiting of the Balance by an Affiliate Partner during the period from the issuance of the permission until its revocation.
  - c. In order to make operations on the Balance possible, Clients agree for ES to debit their Balance and allows ES to inspect their Balance status without the right to access Balance history.

If the Server is overloaded, making it impossible to view the site or slowing it down considerably, the Operator has the right without a prior warning, to temporarily, automatically block of non-key functionality of the Service, in particular to temporarily limit API access or access of other functions which require a lot of processing power, so that the Service can handle tasks related to the operation of Key functions.
  - b. If the Client uses a shared server, the Operator may introduce limits of frequency in downloading and generating information, sending emails, etc. The limits are clearly defined on the Operator's website.
29. Technical support packages include only help with the handling of available tools. The Operator may expect Additional tasks to be commissioned if the Client inquires about:
- a. Checking and debugging of the Client's programs which use the Service's API, as well as giving detailed advice and training regarding the usage of the API, which exceeds the scope of documentation available on the Operator's website.
  - b. Checking and debugging HTML, JavaScript and CSS or validating translated texts, created and added by the Client, as add-ons to the Template designed by the Operator, or during the process of editing the Template's code by the Client.
  - c. API usage, including verification of the performance of programs used by the Client, designed by the Client or by a Third Party.
  - d. Outdated Supporting Applications, for which a new version has been available for over 90 days.
30. If the Client inquired about removal of an error, causing incorrect performance of the shop's Key functions in Express Mode, after the issue is resolved, the Operator may charge the Client in accordance with §8 item 27 if the error was caused by the Client. The charge is calculated as per the Additional task terms, including a charge for the Express mode if such is relevant.
31. Using individually designed logos, or shop Templates outside of the Service requires a prior purchase of an additional license, which is detailed in the Price list. Other custom content can be used without purchasing any license, as they are licensed as part of the Service Fee.
